CODESUITE PRICING

License tokens cost $10 each. To run different programs within CodeSuite requires different number of license tokens, depending on the number of bytes of code being examined. The costs are shown in the table below. To find out the number of license tokens needed for the code you want to analyze, download CodeSuite and run the job. CodeSuite will tell you how many licenses you need.

CodeSuite® Tool	Cost
BitMatch®	$100 per MB of code
CodeCLOC®	$20 per MB of code
CodeCross®	
Same name files*	$10 per MB of code
All files	$50 per MB of code
CodeDiff®	
Same name files*	$10 per MB of code
All files	$100 per MB of code
CodeMatch®	
Same name files*	$40 per MB of code
All files	$400 per MB of code
CodeSplit™	$10 per MB of code
SourceDetective®	$10 per 100 searches
FileCount™	$0
FileIdentify™	$0
FileIsolate™	$0

Spreadsheet Generators	$0

This option compares only files whose names are identical, within the entire group of files specified for comparison.

CodeSuite-MP

CodeSuite-MP is a version of CodeSuite that runs multiple processes on a multicore machine for faster completion. Costs for running any CodeSuite tool on CodeSuite-MP increases the cost by 10% per independently running process.

Time-based Licenses

CodeSuite can also be purchased for unlimited use over a period of time.
Six months: $50,000
One year: $100,000
